All of their toys are meticulously designed and every single piece

hand sewn in their studio in Los Angeles, to insure quality control. They are dedicated to creating unique and innovative toys with superior materials and fabrics. *Moncalin* are suitable for all ages. All *Moncalin* can be washed and dried on a gentle cycle.

The Pee-pee Teepee Poem!

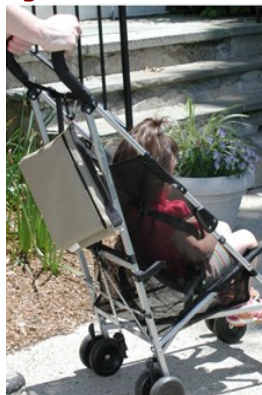

*Changing a baby girl is not all glitz and glory;
Changing a baby boy is an even bigger horror story.
You hold his feet in one hand, and the diaper in the other;
The whole time praying, "Please don't pee on your mother!"*

The Pee-pee Teepee...for the sprinkling wee-wee. This cone-shaped cloth product by *Beba Bean* makes diaper changes dry and easy! The ultimate diapering accessories for boys; the perfect addition to any baby shower gift.

The DadPad Makes an Outstanding "New Dad" Gift!

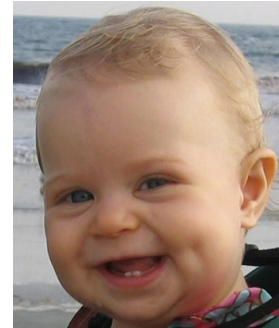

Increasingly, diaper toting is for Dads too. The DadPad by *I'm Still me!* is dedicated to the principle that men in suits (or not) DO change diapers! The Dad Pad tucks into slim line cases, or clips to mountain bikes, jogging strollers or backpacks. It also qualifies as emergency gear for back seats and trunks during Saturday morning jaunts to the laundry and grocery store.
