

Valentine's Gifts of Love

Baby Love

These adorable baby onesies read "Aphrodite" and "Eros", Goddess and God of Love. And you know your baby was born as one, so make sure the whole world knows it!

With Valentine's Day just around the corner who wouldn't want to dress up their little Cupid into appropriate attire. With Babybags 100% cotton onesies you will not miss.

Say It With Flowers

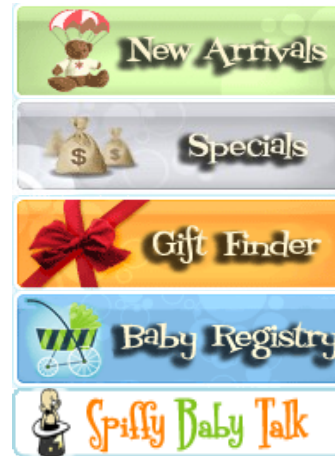

There's no better way to say "I Love You" than with a beautiful bouquet of flowers. But within a week's time flowers wither away and your beautiful gesture is forgotten. Not with a bouquet of roses from The Baby Bunch. This magnificent gesture simply can not be erased from memory, as the "flower buds" are actually a bunch of baby clothes! 100% cotton, each bouquet consists of a collection of newborn to 12-month-old baby clothes (depending on the size). There are even Organic Bunches (for the Green Lovers). Our favorite for Valentine's is the Red and White Winter Bouquet (now at 20% off!), because red is the color of LOVE.

In Love With "My Cuddle"

There is nothing sweeter than to see a smile on your beloved's face, no matter how young or old, sweetheart or child. For that reason we think that a luxurious plush handmade toy from Moncalin will be a hit no matter whom you want to smile. Moncalin means "My Cuddle" in French, and their toys make you want to do exactly that— CUDDLE. Soft plush toys in luxurious color combinations will be perfect for this day of love and for always.
